Live Chat tells you where your visitors are located, if they've visited your website previously (and if so, how many times), if they are returning customers who have already purchased or ordered, their email addresses and their names. Live Chat operators can wait for customers to engage with them when visiting your website, or your operators can reach out to visitors to initiate chats. You can also register here for the weekly organized webinars. About Support Live Chat Inc. has entered its beta phase, which warranted an update of the now 5 year old trailer. You can use the tool to answer questions, provide pricing, resolve issues and even make sales. Live Chat also enables you to monitor traffic to your website. We also provide specific features and subscriptions for Personal use Interior design Real estate (Furniture) Retail Education About For who You can create great looking 2D & 3D images from any project for FREE. Your project will stay that level for as long as you need. About Project Levels You can buy a (small) bundle of credits for a one time fee or you can choose from our subscriptions of monthly/yearly prepaid credit bundles at a discounted rate. And I'll finally be pushing towards actually finishing the game. Live Chat also enables you to access email addresses from customers as they engage in chats. Benefits of Using Online Live Chat Support Not only does Live Chat give you the ability to interact personally with people who visit your website, you also gain valuable information about these visitors. This application enables you to engage with customers in real time, making it a great business tool. What is Live Chat? When people land on your website, you can engage in real-time conversations with them via Live Chat. As people visit and your Live Chat greeting reaches out to them, you simply communicate with them in the chat window. This can be an effective way to personally engage with prospective customers. Visitors to your website can also leave Live Chat messages if no operators are currently online. If you need to utilize more operators, you can upgrade to change the seat count for operators. You can also install a Live chat desktop app to have the service running in the background, starting automatically whenever you start your computer. You can also set up a Live Chat bot to handle some of the simpler chats you might receive. You can set the wording of greetings and how they engage with your visitors. Changes Added company sign customization options Highlighting for selected carpets and signs has been added Default buildings are now loaded from RAM, so custom buildings can be cloud synced with Steam Fixes Fixed Gas boiler, Heat pump and Roof AC usage estimations, that would otherwise make them break too quickly and make them seem cheaper in the build menu Fixed bug that would make game think manufacturing process was invalid because a step was skipped Fixed an infinite loop bug when dragging a wall in cramped spaces Fixed divide by zero error in add-on sales calculation Fixed walls also being lowered for pillars when toggling walls Fixed component printer or assembler being marked as sending to an invalid destination in cases with many splits and merges along the assembly line Fixed staff not picking closest furniture if they had assigned rooms and the furniture was placed directly above on another floor Image Patch notes for Beta 1.1.19 Changes Fixes Fixed fire alarms being animated on load Fixed being able to place wind turbine in the middle of road and vice versa Fixed bugs that would cause employees to get stuck until reload when deleting elevators they were using Fixed game sometimes failing to restore stolen or burnt furniture Patch notes for Beta 1.1.18 Changes Made it take a little longer before lead designers quit over unmet demands Team changes in project management is now also applied instantly for support, marketing and update tasks Moved notifications out of the way of the money label in build mode Added option to update tech for project management Fixes Fixed wall furniture not getting collisions updated when dragging wall out Made lead designers move computer if they are at work when they demand a private office and made them better at picking private offices when it happens Fixed employees sometimes not waiting for IT to finish fixing their assigned computers before moving onto another free computer Patch notes for Beta 1.1.17 Changes Save files and some settings are now synced with Steam Cloud Canteens and lounges are no longer treated as special rooms when assigned to teams, so employees stop avoiding them Furniture that contains perishables can now define an expiration date, to avoid paying for a full refill every day Fixes Game will no longer load mods with invalid name generators instead of failing silently during gameplay Fixed a couple of edge cases when placing single room duplicate in existing room, using wall drag or rectangle split causing game to break New trailer [previewyoutube=aZz_eP2lGUE:full] [previewyoutube] Software Inc. Each Project Level offers more features and higher quality exports. goes from \$14 to \$16 (Depending on your region). Our subscriptions also offer additional benefits for regular and/or professional users. More and more, consumers are demanding and expecting immediate help from the companies they approach. Projects can be upgraded with credits. With this app installed on your website, people simply click a small widget to begin a conversation. Thank you so much for sticking with me all this time! But also thank you for not sticking with me all this time, but just playing it a couple of times 2 years ago and forgetting all about it, I still appreciate the support! Draw accurate 2D plans within minutes and decorate these with over 150,000+ items to choose from. We always thought that a tool like floorplanner should be available to everyone and that's why we have made our tool simple to use and have offered a free version since 2007. The "Agents" tab allows you to manage your operators, and the "Reports" tab allows you to track chat availability, chat satisfaction, greetings conversion, chat surveys and more. Live Chat also enables you to set up "canned responses." If your visitors tend to have the same questions, you can create these pre-scripted responses. Alpha 11 save files are compatible with Beta 1, but won't take advantage of many of the new features, like add-ons and hardware designs. MORE FROM QUESTIONS ANSWERED.NET Major changes Image Added add-ons, which are extra products that can be developed and sold for a software or hardware product Added software updates, which allows increasing the tech level of a product to extend its life, and updates are now required to release bug fixes Added subscription-based software Added lead designers, who heavily impact the sales and marketing efforts of a product and have demands to boot Added hardware design system, so each hardware product's look can be customized Overhauled hiring with a limited hiring pool that refreshes every month Overhauled employee traits, there are currently 30 traits You can now have up to 4 founders when you start a new company Overhauled utility values and prices and added more ways to generate and store electricity Overhauled product reviews, you now get 3 reviews from various reviewers that focus on specific aspects of the product and company Improved rectangle room building and added wall dragging tool Overhauled notification system and look, issue messages now stick around until they are fixed Added bikes, body odour and bathing Save files, blueprints and some settings are now synced with Steam Cloud You can still play Alpha 11 by switching to the legacy branch in Steam, click here to see how. If you upgrade a project with credits you will unlock better export options like better image exports and useful interactivity. has motivated me to continue improving on the game for so long, and it has made the game so much larger than what it would've otherwise been. Your support and feedback, and my enjoyment of developing Software Inc. This would make the game cheaper the earlier you bought it, as a reward for backing it early. After creating an account, you simply log into the account and copy the code for your Chat widget to your clipboard. This gives you the ability to follow up with them later, even if you aren't available when they visit. Setting Up and Learning to Use the Live Chat Service After installing the Live Chat widget code into the source code of your website, you're ready to learn how to use the service. You can configure the widget so it fits into your website. This is the place where you can find the manual and various tutorials. You only need to upgrade a project once to unlock the features. From there, you can try the service for 30 days to see if it fits your needs. Additional Live Chat Services Live Chat offers some upgrade services that you can add to your account. Render great looking 2D & 3D images from your designs with just a few clicks or share your work online with others. Explore more Your space is important and good tools can help you to make the most out of it. This includes finishing up some game mechanics that aren't quite there yet, like digital distribution. Floorplanner can even be integrated within your website so you can offer your own Roomplanner to your customers. Company Pricing For over 13 years floorplanner has been a leading platform for cloud-based floor & space planning. You can also have multiple operators working at the same time to handle chats. If you click the "Customers" tab on the left of the window, you can see where customers are on your website. New price With the release of beta 1 the price of Software Inc. The plan was always to increase the price of the game as it neared completion. We are a stable partner for over 200 smaller and bigger companies worldwide that offer floor planning services via our platform. You can engage with as many as six visitors at one time. We provide mature APIs for deeper integrations and connections to other technologies and apps. About Partners Visit our support page to get the most out of floorplanner. Then operators can use them to answer questions more quickly. Free Live Chat Online You can sign up for a 30-day free trial of Live Chat without having to provide a credit card. The bot will turn over chats to human operators when available and necessary. is a tool you can use to interact with customers or clients on the internet. Now it's at the point where I'll be spending most of my time polishing what is there, rather than expanding on it (I won't rule out feature creeping completely, though.). Customers can also initiate tickets to ask questions. You then paste the code into the source code of your website before the "/body" tag to install the widget. A floorplanner project can be one of four Project Levels. The game is now 5 times bigger than I originally planned and I've been developing it for 7 years, rather than the 3 I initially planned for. You can see what pages people visit, how long they stay there and if they return for subsequent visits. About Pricing Floorplanner offers a great great platform for companies in need of a flexible, easy-to-use yet powerful spaceplanning solution. Draw, share and archive floorplans of properties within your team or have your sales staff make attractive 3D design-proposals within minutes with your own products. Clicking the "Archives" tab allows you to access off-line messages. Any additional visitors will be queued.
